Hi Andy,

As I mentioned, it seems odd that some of the clean up I did didn't take, so I went back and did some again (I also added a comment to the one you added)

David:

I did some clean up. One question I have for you is whether the comments your team made are okay to share outside the agency.

Andy,

I think ARLO is done adding comments to this document—thank you very much for the opportunity to review.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) I ended up circulating the report to OAR and ORD, which as you probably know have the primary responsibility for NAAQS reviews, and management in those offices was fairly surprised to see characterizations of how they staff NAAQS reviews that didn't reflect their views or input.

I'm not sure how you plan to proceed—

Ex. 5 Deliberative Process (DP) but if you'd like to have any follow up discussion please let us know.

As an aside, I found it interesting that the best example of "retrospective review" that is identified in the report, section 610 reviews, were universally described as not being helpful or useful but I couldn't tell if or how that information was reflected in the recommendations of the report.

I set the permission that anyone in EPA with the link can edit. Hopefully that works.
Andy
